WEEKLY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF LA CUMBRE, CORDOBA, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Today, with their pleas, My praying children weave the green mantle of light of Mother Nature, and this spiritual mantle gives shelter to the group soul of each one of the kingdoms present in the Amazon and in the world.

It is thus, dear children, that the green mantle of light, woven by each one of My praying children, not only covers the Lower Kingdoms, but also the great angels of the Amazon, the devas, the elementals and the luminous consciousnesses of sacred nature, which are suffering the terror of disappearing and of becoming extinct from their habitat due to the activities of humankind.

Today, sacred nature receives a spiritual relief, as it has never received it before. And this is possible because at least a part of human beings respond to the needs of the most inoffensive beings, of all the creatures that are part of the sacred ecosystem of the Amazon.

As from now, I want to thank My children for having dedicated this Sunday to the prayerful rescue of the Kingdoms of Nature, and I hope that another thousand Hail Marys can be offered in the future for the one and great lung of the planet, for our dear and sacred Amazon.

I thank you for having responded to My call!

Today, in gratitude, I receive your deepest prayers.

Who blesses you,

Your Mother Mary, Rose of Peace
