DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??

If you contemplated with the heart the needs of the world in a natural way, your own needs would dissolve. What is happening is that consciousnesses are not truly touched by what is occurring on the planet and have still not opened themselves to understand what is happening.

While souls submerge in the planetary abysses, many are still worried, trying to offer little sacrifices to God with great effort, but transforming almost nothing, each day.

The impossibility of transformation is dictated by the consciousness that, being immersed in itself, cannot get out of its own difficulties; and the worst that happens in the world, for that consciousness, is that which it does not manage to transform.

Companions, in times of Apocalypse, your proportions must change in the consciousness. Instead of being so preoccupied with what is happening to yourselves, place your attention on the planet and all your vigilance and prayer to balance the planetary chaos.

I assure you that if you discover love for the Plan of God and, within that love, absolute perseverance in the concretization of this Plan in all souls, in a short time you will not be the same and you will dissolve in a higher purpose.

The Lord needs, in this time, consciousnesses capable of renouncing themselves, so that they may be instruments of the manifestation of His Plan, and this happens when the being gives all, including giving itself, so that the purpose of God may be fulfilled in all souls.

You should be less concerned about the fulfillment of the Purpose of God in yourselves and more with its fulfillment in all of humanity. If you do everything so that the other reaches salvation, awakening and holiness, I assure you that you will reach your goal in a way that you would never reach if you were so preoccupied with yourselves.

These are times of planetary crisis, of Apocalypse, of Armageddon. May each one remove the attention from oneself and observe what they have around them. It is time to develop love for your neighbor, love for the planet, for the Kingdoms of Nature, for the Plan of God.

Offer your lives to a higher purpose and direct all your efforts to the salvation of others. With care, give your best so that another may reach holiness.

Pray, not for yourselves, but for the souls who truly need it, because if you are reading these words, it is because you already have everything, and even much more than you deserve.

With love, I guide you and in My Divine Paternity I make you grow.

The Most Chaste Saint Joseph
