DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS??????

In times of imminent battle for the concretization of the Plans of God, for many, the greatest battle continues to be against themselves.

Children,

A soldier may have been summoned to war due to the needs of the times and may want to experience the training, but not the battle. However, when they are already in the field, and the battle is taking place, they cannot afford to go on with their resistances; they must fight and defeat fear.

As humanity, you are now fighting a battle that is manifested at different levels: inner, mental, emotional, spiritual, and even physical for many.

This fight has no rules. The adversary does not wait for you to be ready to attack. He knows all your weaknesses and knows how to play on the board of the human consciousness. But he does not know everything about humanity, because the true result of this project is a mystery to all Creation, even to the Creator Fathers that assisted the Lord in the human conception. For this reason, you have no other option than to humbly surrender to God and follow in His Footsteps.

The humanitarian missions are generating many possibilities for salvation and rescue of souls, and they are withdrawing from the abyss the consciousnesses that had already given up in the hands of the adversary. The opposition to this Plan cannot just observe the triumph of the selfless hearts and the awakening of consciousnesses to the mystery of service. That is why the adversary tries to play all its pieces, activating within servers the human and capital energies undergoing purification as a way of inwardly destabilizing the Army of God, or even opening certain ruptures in the inner fortitude of consciousnesses.

It is for this reason that We are asking you to strengthen your inner peace, your unity with one another, and your fortitude in prayer because the adversary will cause the inner impurities of each one to grow so much that many will not want to be together with others. Understand what is happening, do not judge, help your neighbor, and see these situations as opportunities for strengthening your unity.

Both in this last stage of the mission in the Middle East, as in the possibilities of new missions in assistance to the original peoples, the fury of the enemy is noticeable. Focus on the eternal Light of God and be steadfast.

Read and re-read the instructions of the Divine Messengers so that they may be established in your consciousnesses and you are able to take steps.

One who loves you,

The Most Chaste Saint Joseph
