DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS??????

Children,

I know that for many, the inner purification that you experience seems endless. And in thinking that you are only at the beginning of everything, sometimes you feel that you will not be able to persevere until the end. But it is the time to face your own mud, seeing with your eyes wide open that it does exist, and moving towards an inner cleansing that everyone will have to do.

Your Most Holy Mother, the Virgin Mary, is having you face what you must transform not only as individuals but also as humanity. She is doing this as a way of accelerating the self-purification of everyone because We can no longer stop the planetary purification and you must be ready and a little emptier of self for that moment.

Do not despair, do not lose your peace. Only observe what there is to be transformed and, as much as this may cause you discomfort and sometimes pain, be as neutral as possible in the face of these situations. If you learn to maintain peace with yourselves, you will have more possibilities of keeping your psychic and emotional balance in the times to come.

Despair and sadness, as well as indignation, will not build the fortitude that you need. These feelings, which emerge naturally in the human consciousness when it is before a situation that is out of its control, must be substituted for a feeling of peace, neutrality, and understanding. If this is not done so, the adversary will take advantage of the weaknesses of your hearts to turn a situation that could be simple, if it was seen more wisely, into a chaotic and uncontrollable situation.

Be careful not to allow yourselves to be carried away by uncontrolled emotions. Remain in God, knowing that He will sustain you, because - in spite of so much misery and imperfections - your spirits are on this path because you have already chosen to live love.

It is not that you will be negligent or indifferent to your own purification. There is a limit between neutrality and indifference. Neutrality is a divine attribute, a Ray of the Creator, which allows you to live His Will in righteousness and wisdom; while indifference is a terrestrial force that distances consciousnesses from the true purpose and isolates them from reality.

Prayer and self-observation will be important keys for those who are experiencing difficult times of purification. Pray a lot and meditate on the planetary reality. Place yourselves back in the correct place every day so that you may peacefully overcome the obstacles of these times.

The effort will be continuous; for this reason, you must proceed with peace and attention, so as not to give up before time. It will seem to you that the sacrifice will be eternal, but eternal will be the Victory of God, through His triumph in the human heart.

Go forward.

Your Father and Companion,

The Most Chaste Saint Joseph
