DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS???

Children,

The Kingdoms of Nature are dying each day, and this makes the spirit of Earth lose its strength, its life and its capacity of supporting the evolution of those who live on it.

The majority of the human beings is asleep for the real mission of the Kingdoms of Nature and can only understand, at most, their material role in supporting life.

Everybody understands that without trees you could not breathe, that without water you could not live, that without animals there would be no balance on the planet, but few understand that those who do not learn with the spirit of the trees do not reach elevation, those who do not live the purity of the waters within themselves will never find their origin, will never return to the Creator, and those who do not learn with the love and with the self-giving of the animals will never develop within themselves the Christic love and will not be able to be a part of the concretization of the Plans of God for this race.

What I tell you is only an example of what the Kingdoms represent for the human and planetary life. Without the Kingdoms, there would be no balance, there would be no evolution. The Kingdoms of Nature bring to humankind all the attributes they need to fulfill their mission: that of uniting themselves to God. The Kingdoms always lead to the unity with the Creator. Contemplate a forest, a river, a mountain, a dog and you will understand what I am saying to you.

With the contribution of the Kingdoms, the human being would reach the unity with the Father, and seeing in front of them this example of perfect union with God, the Kingdoms of Nature would follow the same path of unity and love. This would be a mutual surrender for the evolution.

On this planet, children, everything was created for us to live the Christic love. Life exists due to the giving of all and thus was organized for the inclination to love to be natural in every living being. But the human heart negated this perfection and this love and not only enslaved and martyred the Kingdoms of Nature, but also their fellow beings and, as a result of this no-ending unbalance even the Heart of the Father suffers outrages by actions of His creatures.

Now, children, it is time to balance, it is time to learn and to live all those principles for which you were blind for such a long time. Because - although the transition of the planet and the decrease of Justice cannot be avoided - the establishment of the new race will take place by means of the expression of these divine and original principles in the hearts of those who said "yes" to the Greater Plan.

Today and every day, I will give you the impulse for the love of the Kingdoms of Nature, for the learning with the essence of each Kingdom and for the self-giving through everyone, to collaborate with the evolution of your smaller brothers.

Your Father and Instructor,

The Most Chaste Saint Joseph
