Daily Message received in the Marian Center of Aurora, Paysandu, Uruguay, transmitted by the Glorified Christ Jesus to the visionary Friar Elías del Sagrado Corazón de Jesús

There is no greater concern than My Love, for My Love dissolves all worry into light. Nothing opposed to love can be greater.

Therefore, when there is concern, it is something understandable, it is the point of friction that souls find when they have to take a big step for something unknown and higher than their small possibilities.

Concern places the consciousness within a constant tension.

Concern is also dissolved by means of the trust the soul may express for the Higher Will.

These days souls worry so much because they lose the leading thread which brought them here, to this life, to fulfill the Purpose.

Yet worry also occurs when the soul fears the result of its destiny or the destiny of a fellow being.

All these feelings, which are fed by the lower consciousness of humanity, are defeated by means of a trustful love, a faith capable of going beyond every difficulty and every obstacle.

I, as a Man and incarnated Consciousness, went through concern and the fear of facing the Passion. But faith in God and trust in My Father lead Me to give all and to sustain Myself in an unbreakable purpose.

I thank you for keeping My Words in your heart!

Who blesses you,

Your Master, Christ Jesus
