Daily Message of Mary, Rose of Peace, transmitted during the journey from the Marian Center of Figueira to São Paulo, Brazil, to the visionary Friar Elías del Sagrado Corazón de Jesús

In the times to come, the gift of Faith will be the means for strengthening hearts and preparing them for the final time that is approaching.

The way out of risky situations will be found in Faith, and contrary currents will be able to be neutralized through Faith.

Let the Faith of My children always make them capable to say 'yes' and to be available for everything; in this way, My Son will recognize you through your labor and knowledge, beyond your weaknesses.

At this time, an alliance with the universe is fundamental to be able to lead, in this case, the destiny that circumscribes the planet.

The hour has come to see reality because by assuming the places of greater conflict in order to transmute them, the planet will be alleviated of all the burden it bears.

In this sense, the time registers a culminating moment that must only be filled by prayer from the heart.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
