DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS?

Child,

Do not forget to think in the planet more than in yourself. The one who aspires to know all sciences and forgets the most important of all - which is the love of neighbor and of the Plan of God - will never find the path that leads to Christ.

Then concentrate your attention every day on the life of The One who came to the world to be your example. Revive His Gospel, not seeking to be a Messiah, but rather living the Teaching He brought to the world. There was only one Messiah and there will always be only one because that is a single mission, which will finish to be fulfilled in the return of Christ. The state of Christ is what must be multiplied. It is on the experience of this Teaching that your attention must be. Remember that Jesus reached Christification on the cross when, alone with His humanity, He was able to forgive and love the humankind, the planet and the Plans of His Father, more than His own life.

I will not ask you, child, to die on the cross in order to learn to love, but rather to die a little more every day because each time you die a little, you learn about true love, the Christic love.

Renounce all glory on Earth, all recognition, all honor, even when this honor will be given to you by the humankind out of the admiration of seeing you virtuous and adhered to the Plans of God.

Jesus could have descended from the cross and convinced humankind of His Power. If He had done so, maybe many people would have honored Him and believed that He truly was the Messiah, but the Teaching of Christ was also a learning for Himself: from His birth till His death, He should demonstrate to humanity that it is not through glory, through aggrandizement or through the use of power that you reach God, but only through the simple humility and resignation before the Father.

Jesus knew that all powers He had belonged to His Father, and these powers were taken away from Him on the cross so that He would learn from the maximum power that comes from having or being nothing: Love and Mercy.

It was like this that Christ renovated the human consciousness and even the universal life because not only on Earth but in the whole universe power and the use of forces and energies were valued.

All the Creation lived a learning with the example of Christ because after having renounced Himself and His life, He made His Body be reborn and regained the life of His Cells only with the power of the love achieved on the cross. There was no science, substance, energy or vibration that, in a laboratory, would revive the Body of Christ: it was pure love, renovated by the renunciation and by the surrender of Jesus, which made He regain life.

Thus learn, child, to renovate once more the human condition with this living example of Christ within and before you. Imitate Him, overcoming the fear that humanly torments your heart, and open yourself to be nothing.

The one who, in humility, was nothing and achieved everything, your Father and Companion,

The Most Chaste Saint Joseph
