APPARITION OF THE VIRGIN MARY, ROSE OF PEACE, AT THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

In the name of the Father, the Son and the Holy Spirit. Amen

Today I come to the world because it still needs it, because it still has not found Peace.

Thus, My children, in this culminating moment, I have need of you, beyond what is happening to you or everything you are going through. I need you close to My Heart, under My Mantle, so you can help me establish Peace in the world, so that later, the healing of humanity may be established.

Therefore, it is important to pray the Holy Rosary every day, especially in these last days of July, which will prepare you for August, in which My annual Message will come to the world as a preamble to the coming of the Celestial Church of Christ.

Today I come surrounded by the Creation of God, especially the Kingdoms of Nature, which still need your prayers and supplications, because not only humanity suffers; your younger brothers and sisters, the Kingdoms, throughout the breadth and length of the world, are also suffering the consequences of the climate change and global warming, which are becoming worse upon this planet, every day.

But there is something that can prevent it all, which is the prayer of the heart and fasting, something fundamental for this end time in which humankind will be able to be reconciled with the laws of nature through prayer and fasting. Something that I taught you in the first years of the apparitions, not only for the cause of the Kingdoms of Nature, but also for other causes that are still necessary and urgent to attend to.

In this way, dear children, through prayer and fasting, you will awaken within you the talent that My Son left you, which the Heavenly Father calls gifts. Fundamental virtues that, in this moment of humanity, need to be available for this planet and this race because, through the Gifts of God and the virtues that you can live, you will be more aware and have the knowledge on how to rebuild this planet regarding how to help the Kingdoms of Nature, regarding how to support this humanity.

I come with this message from Creation, from the universe, the stars and the suns. God expects that at least a great part of His children, in this definitive time, may begin to rebuild humanity and the Kingdoms of Nature.

Here, in this sacred place, through the sacred tree of Figueira, knowledge and instruction descended directly from God Himself through His instructor José Trigueirinho, who Our Father has in His Glory.

Through what he taught you, in simplicity and in love, you have the first signs, as current humanity, of how through your inner contact with the universe, with prayer and fasting, you could rebuild the Kingdoms of Nature, because as long as the world continues to commit infractions against Creation, it will continue to suffer.

My children, this is what you must know today, and take into account within your hearts. Not only humankind has need of healing and redemption, not only does the pandemic need to end so that we may see what humanity has learned, but also the other Kingdoms of Nature have need of your help and love.

You could never imagine a world without the sun, without the dawn, without the morning breeze, without the tide of the oceans, without the singing of the birds, without the freshness of the Plant Kingdom, without the splendor of the flowers.

How could you live without Creation, My children?

God created the universe, this Solar System and this planet, to demonstrate to each one of you how He loves you.

When will the world become aware that it is no longer time to destroy, but rather to build?

If you had the Grace of hearing the cry of the Kingdoms of Nature, you would feel the great pain as I feel it.

But, while this happens, the Kingdoms do not cease surrendering and giving of themselves.

Mother Earth suffers from the aggression of Her children, but even so, she gives the fruits that God's creatures need to continue living and growing in this humanity.

Each one of you, as part of this human civilization, as an expression of the Will of God, beyond faith or religion, has a duty toward Creation.

You, My children, were not only born to live or to think, you were born to be aware of Creation and of the sacred Divine Purpose.

Thanks to the Most High, there are islands of salvation in the world and beautiful places of nature that are still protected from the hands of humankind, so that the human race may learn to feel and live from Creation, not in destruction, but in union.

As long as this change does not take place, the prophecies of the Apocalypse will be fulfilled, but I Who am your Mother and wish the good for each one of My children, do not want you to experience this, that you suffer or endure because of your lack of awareness of Creation and of the Law.

But you could say to Me: "Mother, no matter how much we may do something, there are people in the world who, because of their ambition and power, destroy the planet."

I do not come here to generate a parallel movement, nor a worldwide complaint. Each one today has enough awareness to be able to take care of the Kingdoms of Nature and to know that, without them, it is not possible to live on the surface of this planet. As much as you can do small things, the repercussions will be very great.

Have you ever thought about what a flower feels when watered? What the soil feels when touched with love? Have you ever asked yourselves what the sea feels when it is contemplated by you?

Everything has awareness, a knowing and wisdom. Nothing is static. Everything has a reason in Creation.

I am the Mother of the World, Mother Nature. I am the Governess of the consciousness of the planet. All those who come to Me are not only redeemed in the Name of My Son, but they also come to Creation to discover its wisdom and its science.

The planet needs to be healed of the exploitation of humankind throughout the centuries, and this will be possible because of your adherence to My call. Thus, the Earth will not be left behind, but rather, will be contemplated by the rest of Creation, so that it may be regenerated and deeply healed, just as the planet has expected from the beginning.

You are part of the consciousness of this world. Have you understood? This is your home.

In order for My Son's Celestial Church to descend, the world must change and not continue to struggle to live in the normal and in what is superficial.

Time is running out, it is time to become aware. For this reason, I am here, so that you may grow within.

My enemy does not want you to reach this awareness, but through the offering of your prayers and fasts, you will allow the spiritual and material condition to be generated so that this change in the human consciousness may be possible.

And now, I invite you, My children, to carry out an inner practice with Creation. I invite you to prepare yourselves and to open your hearts even more through inner contact with the intra-oceanic world.

Close your eyes.

And now, at the request of the Father and through the intercession of the Mother of God, we will listen to "Intra-oceanic Aurora".

And through this exercise, which we will begin tonight, I will guide the world and the souls to an inner healing of the heart and of the emotions, of the mind and of the body, by means of your souls.

Open your inner worlds, beyond what your ears may hear. And now, see yourselves facing the ocean, at dawn. See God within that ocean, through His Consciousness of cosmic and inner Love. Feel yourselves to be empty and listen to the ocean like great streams of light coming towards you and, consequently, towards all of humanity.

Placing your hands in the sign of reception, offer your whole being to God and, in the name of the human race, facing that ocean that lights up in the dawn, ask for forgiveness and cry out inwardly for reconciliation, for all that the planet Earth has experienced, since the presence of humankind up until today.

See the great Sun of God emerge on the horizon of the ocean that, with the power of His Presence and Consciousness, with His Light, fills everything that lives and vibrates. Feel your cells and atoms light up through the intra-oceanic presence of the Consciousness of God's Love. Feel Adonai, feel at one with the sacred Divine Unity. Feel within yourselves the Truth of Creation and that which you have been a part of since the beginning.

Breathe slowly. Each time you breathe in, feel how the light of Creation enters your being and your entire consciousness. You are facing Adonai and Mother Nature, in the great void of consciousness, to be filled and blessed by the Love and Wisdom of the Father.

Between the Sun of God and the ocean, see the Son of God emerge in the sky, Who reaches out His Arms as the Redeeming Christ, and from His Heart and the palms of His Hands, He emanates the powerful light of Divine Grace over the four corners on the Earth.

The ocean lights up in blue light and its being, each of its consciousnesses, lights up in the blue light of Aurora.

In the name of the whole human race, in the name of fraternity, of forgiveness, and of love, affirm your inner vows with Creation and the Kingdoms of Nature, so that all may be renewed in accordance with what was foreseen by Divine Purpose.

In the Light of the Grace of Christ, in the Presence of the Father and of Mother Nature, we unite with the essence of Creation, so that we may remember where we came from and what the reason is for our being here today.

May the Laws of Creation descend, may the gifts be given to the men and the women of the Earth. May the sacred virtues awaken, and the consciousness of the human beings expand, so that ignorance may be transmuted and wisdom bring an awareness of this present moment.

Feel the calm of the ocean. Feel the peace of Creation and the establishment of harmony.

Now bring your hands to your heart and feel the union with the Father, the Son and the Holy Spirit.

In reconciliation with the planet and Creation, before the ocean, in the dawn of the Sun of God and the Presence of the Divine Son, we will repeat a prayer, phrase by phrase, which will be translated so that we may all may pray it in the Presence of Adonai:

Lord,

may the advent of the new race be fulfilled.
May humanity be able to express its archetype.
May the word be alive and build Your Temple.
That Your Mystery may expand within us
and true existence be revealed to the world
so that we may gather in Your Name
and glorify perfect Unity.
Amen.

Thus, I bless you and thank you for responding to My call.
May Creation and all nature be renewed in humanity. So be it.
I leave you with this instrumental, so that your consciousnesses may be united with God.

Peace and redemption for the world.

In the name of the Father, the Son and the Holy Spirit. Amen.
