DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS???

I wanted to speak to you about the unity with God and the absolute fusion with His Divine Spirit; however, before that, you must learn about the unity among one another and with the Kingdoms of Nature.

Unity is a primordial Divine Principle for human creation, which must reach its peak of evolution through it.

In the same way that the maximum expression of the human project is the perfect unity with God, the minimum expression also must be based on unity. So that you may minimally achieve your expression as Divine Creation, unity must be a goal and a reality for your consciousnesses.

So that you may experience unity, you must remove from your human consciousness that which leads you to disunion, which is competitiveness.

When there is no competition, hearts can unite under one purpose and walk as a race towards a common goal. But when you want to occupy places that do not correspond to you, when you want to stand out among the rest, when you try to draw attention to yourselves, when you want to make of your presences something irreplaceable, when you look for the defects in others and affirm them so that your own skill and abilities are raised, when you do all of these things, so well-known in current common human behavior, you distance yourselves completely from the purpose of God. With apparent good intentions of experiencing holiness, when you want to be more saintly than somebody else, you are feeding the kingdom of the one that reigns in the abysses of human pride.

You must understand, feel, and experience that each piece that is part of humanity has a primordial role, a unique mission, that must be accomplished so that the Plan of God may be manifested.

Before you judge or lessen somebody and try to stand out over them, think about how there are whole civilizations in the universe that depend on the victory of Christ within the consciousness of that somebody.

Before you overthrow your neighbor with criticisms and judgments, help them to take their steps, because the Plan of God, which everybody supposedly works for, depends on the triumph of His Heart in each of His creatures.

In these definitive times, you must struggle against everything that works towards disunion, even if this is within yourselves, because many soldiers have already been left behind because the Army of Christ itself overthrew them due to their lack of love and unity.

Walk with a single heart, and instead of allowing yourselves to be involved with the forces that reign in the world, involve the world in the Power of God that dwells within you.

Love one another always. Help each other, stand up, walk together. Live fraternity as a doorway to the unity with God.

If you work on this point, many inner paths will be opened to you for your own transformation.

Your father and instructor,

The Most Chaste Saint Joseph
