APPARITION OF THE GLORIFIED CHRIST JESUS IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Just as I hear your voices, I hear your hearts, and although many souls circulate in the time of darkness, My merciful Light comes to you to save you, for I always wait for you in the silence of the Heart.

In each prayer you profess to Me, whenever you seek Me within, you will be able to find Me, for there My merciful Love resides, My Love for all of humanity and for the planet. Remember that I Am part of this humanity and that, in spite of coming from the Greater Source of God, I was among you for a long time, and over the course of the centuries I return, preparing My flocks for My Return, the great encounter expected by all, when God pronounces My second coming.

Thus, for that time you must be prepared, and in this way, as it was said here, your hearts will be renewed in the hope of the Creator, because it is something that will always sustain you and take you directly to the spring of My Mercy.

I know that on this evening many expected this meeting, and I thank you for this reflection of love you have given Me, for My kind and merciful Heart received it.

And in this way, dear companions, I have been accompanying you during all these last days, observing your inner and spiritual needs, so that at last the Plan of God may be concretized in you.

Leave this world, distance yourselves from the problems and the doubts. My Light will always prevail above all things. Always remember My sacrifice on the Cross; this will give you the strength to continue forward and no soul will perish.

For this reason, dear companions, on this evening of Mercy and of Pity, I need you more united than ever, for through this unity the enemy will not enter and souls will achieve the goal they have come to accomplish in this world.

Renew yourselves through My Heart of Light, feel My meekness and My peace which fill you.

I come to renew you once again, I come to renew your vows and your commitment to the Creator, for it is necessary, dear companions, that at My Feet, at My right and at My left side, there exist souls prostrated before the Creator, who offer everything that nobody offers, for those that need light and endure suffering and martyrdom.

On this night of pity, of good news for all, I come to bring you the hope that exists in the Kingdom of the Heavens.

Thus, I invite you to remember the Sermon of the Mount, the moment in which many of you were with Me and took the inner vow of accompanying Me in the end of times.

Your souls have walked at My side for a long time, that is why I need you very close to Me in this hour. In this way, My Rays will be poured out upon your beings and you will not miss any moment. You will find Me close in this humanity, very close to your hearts because it is where I always want to be.

Dear companions, just as you have sung to Me, glorifying My Heart of Peace, I want you to extend this Peace to the whole world, for My Heart is full of Grace and of Mercy; It hopes to pour out Its Light and Its Peace upon all of you, and mainly, upon those who most need it.

In love and in faith, I invite you to draw close to Me to receive My Presence within you, I am waiting for you.

Those who are above will not need to descend; remember that I am omnipresent.

Song: "Christ, You are Love."

Your offering has been heard. Now wait to receive that which you have requested, for I will send it through My Rays of Light and Peace.

Continue forward, walking by My side, for My Heart will always fill you.

In union with the Celestial Father, let us once raise the offering of the Sacraments on this night so that once again the bread and the wine you have left on this table may be converted into My Body and My Blood, symbols of Light and Peace for all.

In My Presence, the Heavens are open. Hold this Divine Presence within your beings, for the angels wait to help you to concretize the mission that God entrusted to you. In union with the Celestial Father, let us sing for the consecration.

Friar Elías del Sagrado Corazón:

The Lord has asked us to choose some brothers present so that they may raise this offering that will be converted into the Body and the Blood of Christ.

He asks us that, at this moment, we remember His agony at Gethsemane.

Song: "The Names of God."

Brothers and sisters and children of My Father, My Heart now receives your promises, those you once pronounced to Me when you were by My side. Offer these promises for the souls that do not fulfill anything for My Heart, as the world needs it and all of humanity also needs it. In order to receive the Graces of God, let souls comply with what they ask of Me, with what they promise Me, with that which they profess from the heart and soul to My Priestly Spirit.

Now in silence, raise your petition, because I am still present, listening to you.

Let us pray as I taught you.

Our Father (in Aramaic).

I bless you and these sacred elements in the name of the Father, the Son and the Holy Spirit. Amen.

Thank you for responding to My Sacred Call. All those who may want to share the Sacred Week with Me will be welcome, for I will pour out new codes upon the world, in this last hour of opportunity.

Go in peace and rejoice your lives.

To end the Meeting of the Sacred Call, Friar Elías del Sagrado Corazón shares the Words that the Glorified Christ Jesus transmitted to him as the monthly message.
